# WORD OF LIFE

**Word Of Life** was created with the mission of connecting the community through the technology platform of the era. With the rapid and widespread development of information technology, the internet and new media, conveying an organization's message on the internet platform is increasingly playing an important role and has a great influence in social life.

WOLBank platform is an innovative Fintech solution based on Blockchain, Database and AI & ML. Based on WEB 3.0 and enables banked and unbanked people to switch to crypto and fiat lifestyle easily and simply.

WOLBank plans to provide a wide range of features for retail and private banking including: trading platform, investment platform, cryptocurrency conversion, ATM services, global remittance, payments, special transactions through databases and AI&ML, credit and insurance facilities with a large number of innovations that are constantly updated.

WOLBank will implement a robust AML compliance framework, to comply with the highest level of compliance and regulatory obligations with an improved and upgraded Blockchain deposit algorithm.

# 01. CURRENT SITUATION

*There are more than 10,000 tokens listed on CoinMarketCap but in reality the number of transactions is less than 10%. That means more than 90% of the tokens created fail.*

# THE STATE OF CRYPTOCURRENCY

REALISTIC VIEW

## EASILY RELEASED

Easy to issue and anyone can create it for trading.

## PROFIT

The profit and growth stories of BTC, ETH, BNB affect the virtual belief in the value of altcoins.

## ANONYMOUS

High security and complete anonymity are easy for scammers to take advantage of.

# LIQUIDITY STATUS

Practical application in life

Every day, there are hundreds of new projects created, but cryptocurrency has not been widely used in real life and consumer goods. It is only used in game projects and transactions between small communities created by each project.

**16.6M**

CRYPTO OWNERS IN  
VIETNAM

**TOP 2**

ASEAN

Crypto is a very risky market for investors to participate in without knowledge and information.

**2024**

# VERY HIGH RISK

When entering the cryptocurrency market

- Lack of practical applications
- No liquidity.
- Relying on Blockchain financial platform for project owners to raise fraudulent capital.

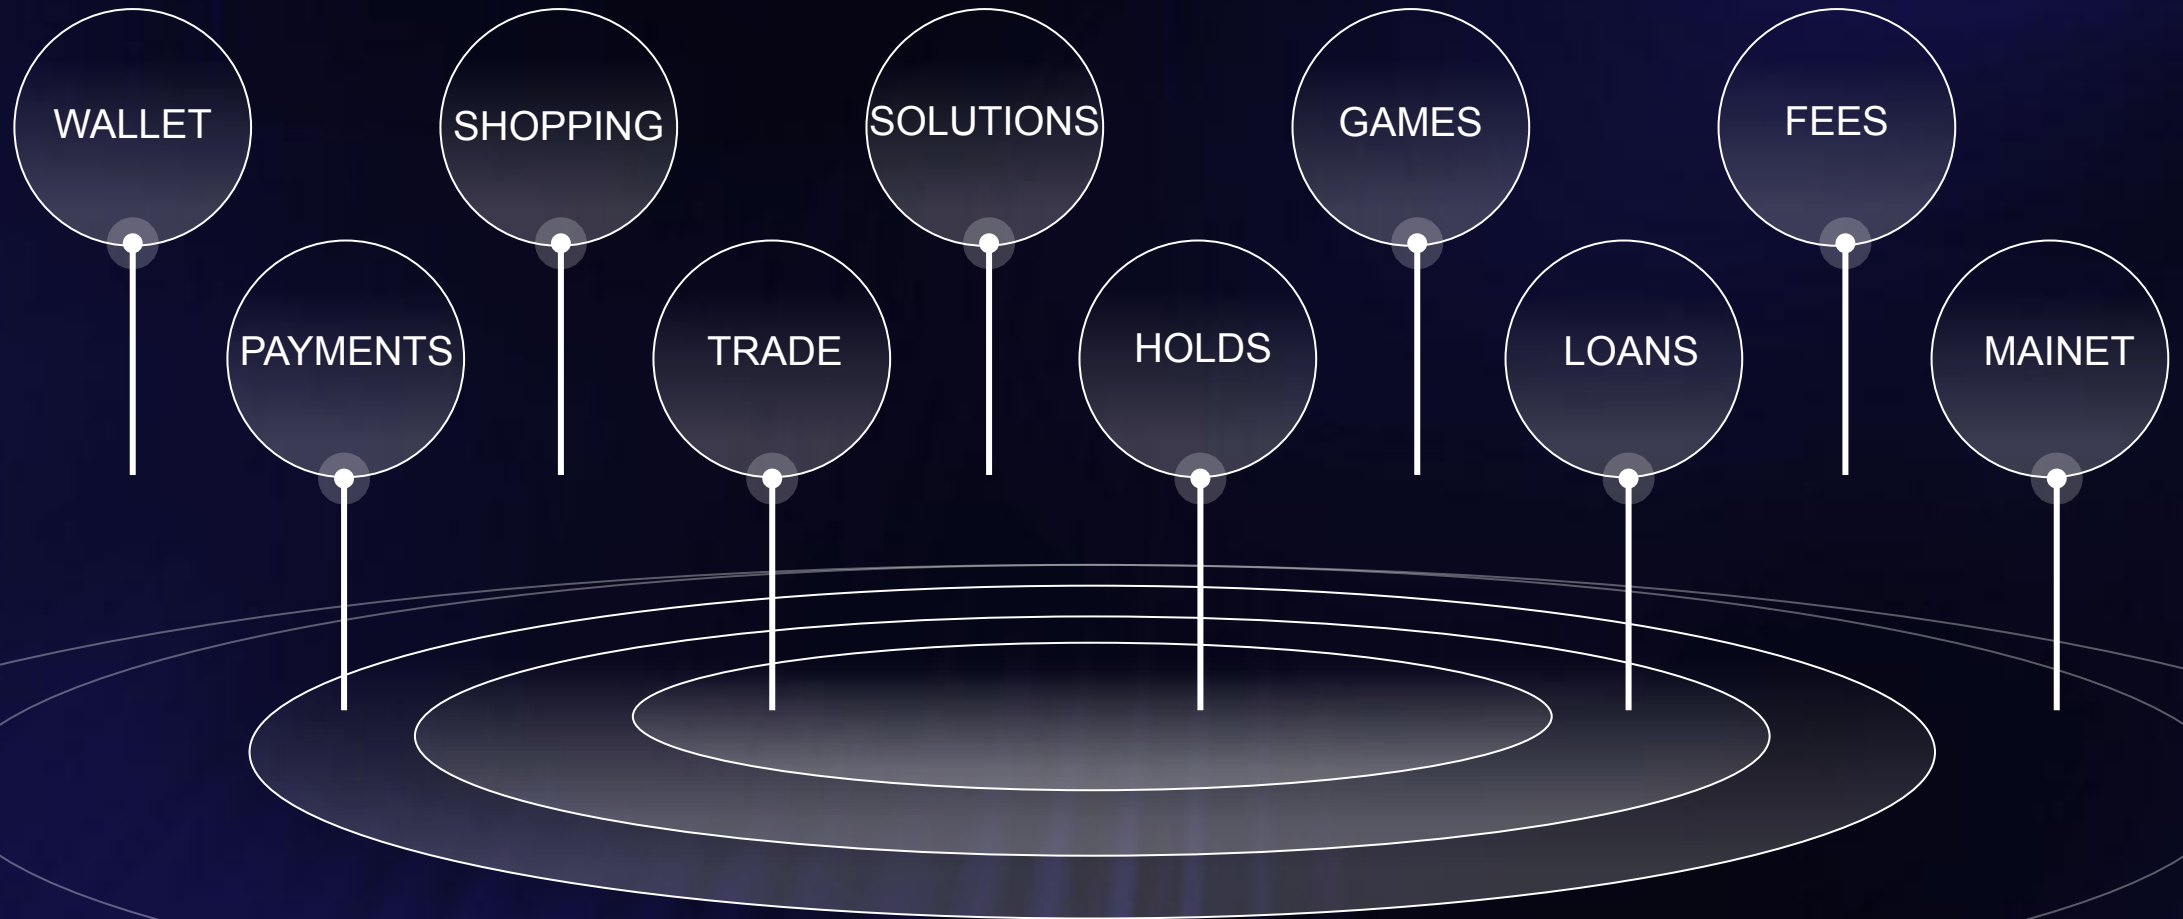

## 02. SOLUTION

We focus on building ecosystems and researching solutions for the crypto market that increase value and create real liquidity for every business building and developing this decentralized financial industry.

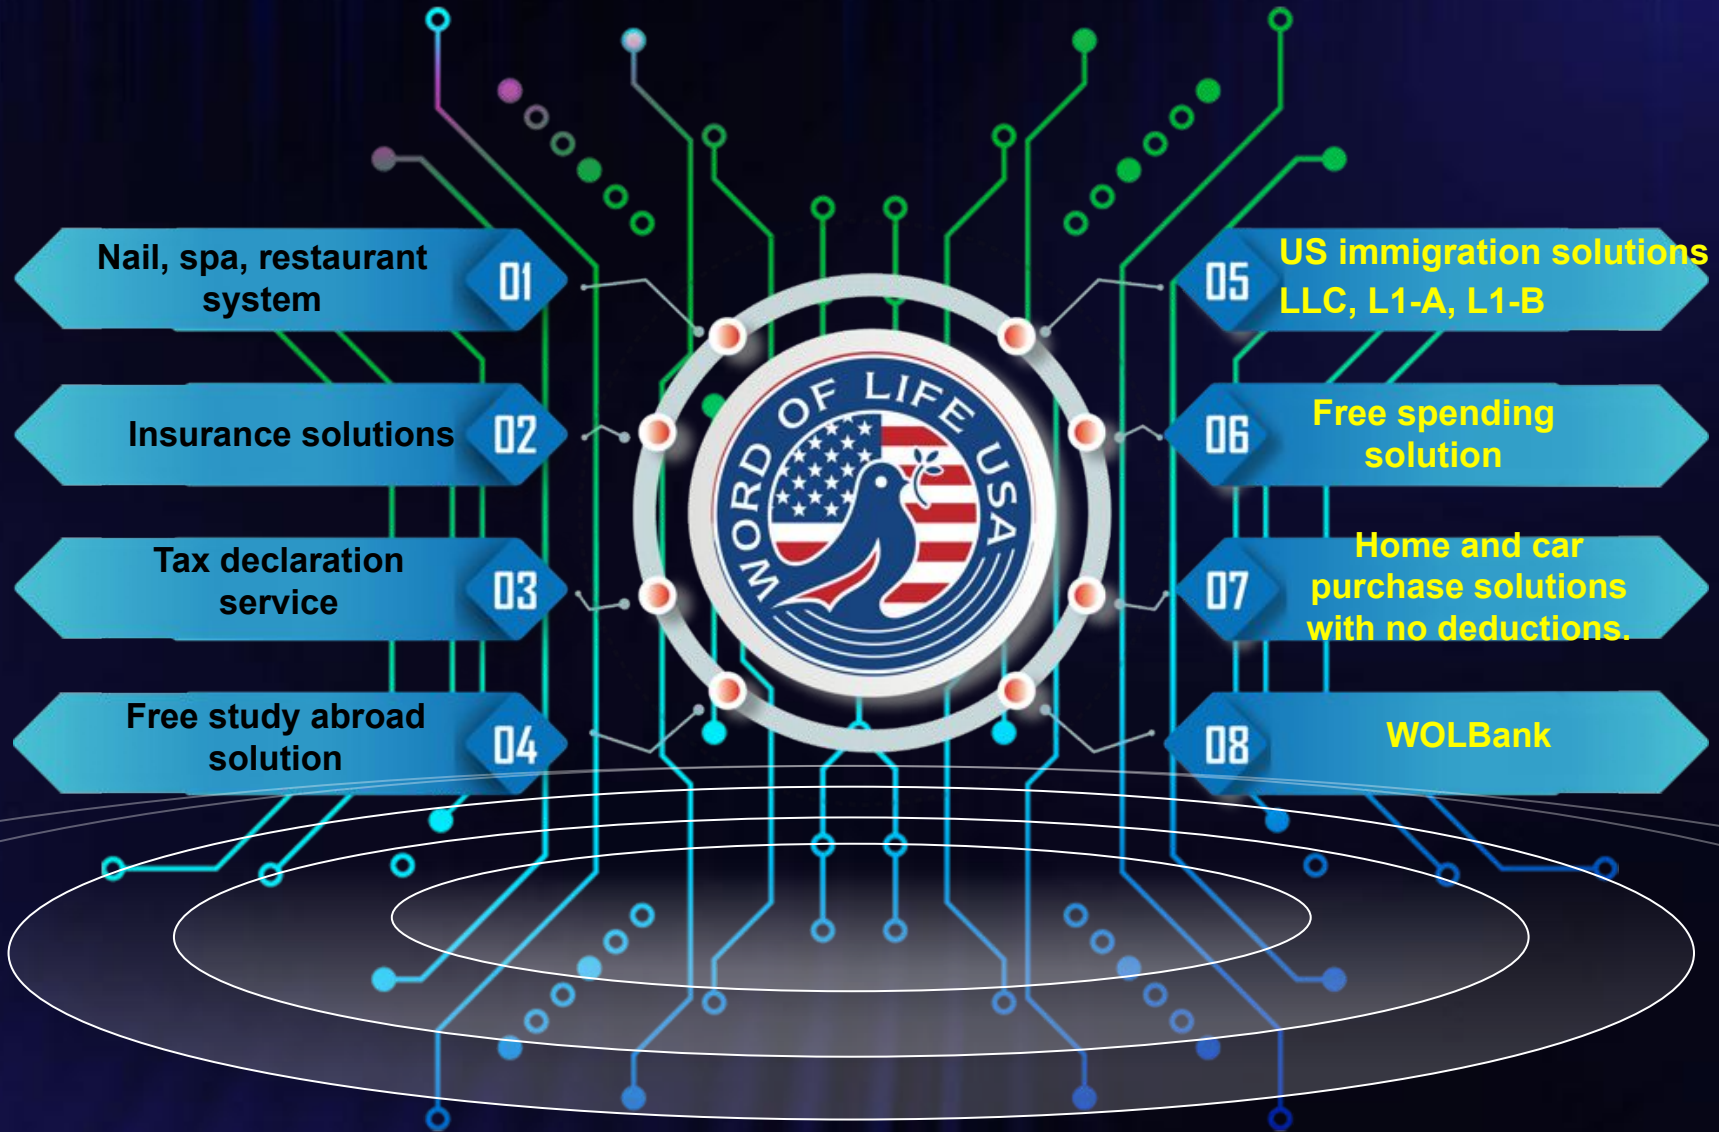

# HUGE POTENTIAL

Of the cryptocurrency market

# WOL ECOSYSTEM

# EXCLUSIVE SOLUTION
